

REDESIGN SHOWCASE

perennial REDESIGN SHOWCASE

10.25.23 | 6-9pm | Wild Carrot
3901 Shaw Blvd, St. Louis, MO 63110

Join us for a night of unique transformations!

Perennial has been building a creative culture of sustainability by bringing DIY classes and events to the community since 2011. Whether it's at their South Broadway workshop or through their community outreach efforts Perennial believes in creative reuse for all.

On October 25th Perennial will bring designers, artists, and sustainability champions together to celebrate some of the most innovative ReDesigns of the year. Artistic teams will have one month to transform a discarded item, sourced from a real St. Louis alley, into a future heirloom. Perennial empowers our community with the tools and skills to find possibility in salvaged materials and build new sustainable habits all year.

This is your chance to support Perennial's work and ensure St. Louis continues to see potential in what's been discarded
